

Tell me about Myself

Good afternoon, Thank you for this opportunity to talk about myself. I am Tareq Mahmud. Recently I have done my graduation in computer science and engineering from a lovely professional university is located in India. I m a front-end developer, recently I have done some projects using technology in javascript, react js, Bootstrap, node js, nodes express, and MongoDB. In my project, I use an Authentication system using Firebase. Web development is my passion. I love to work on projects. I love web development. I struggle with my project but I am happy about my project. I love to play cricket

Best Project

Recently I had done one project E-commerce site. it is my best project so far, it is a Smart watch-related website. There are two-part to this project one for the user and the other admin. For a new user, 1st need to create an account or user can sign in using a Google account. Users can order products and can see all orders in the user dashboard also can put reviews it shows on the home page. For admin, he can add new products, delete products, And manage all user orders. Mainly I used for this project react js material UI, node js, express js, firebase authentication, MongoDB

Why Should We Hire You

This is a wonderful opportunity for me to get interviewed at such a renowned company Your organization will surely prove to be an excellent platform for me to establish my skills and knowledge in the corporate world. Even though I am a fresher, I assure you that I will give my best and work to my full potential so that I can contribute as much as I can towards the growth and welfare of this great brand.

Honestly, I possess all the skills and experience that you're looking for. I'm pretty confident that I am the best candidate for this job role.

What is your salary expectation?

I'm really glad that such a question is asked to me, Being a fresher Salary is not first priority for me this is a big platform to start my career and would be great, if I get a chance to work with your company and I would be quite lucky and I also want to improve my knowledge and gain experience. So, I expect a considerable of salary according to my ability and your ccompany standards. Thank you.

Do you have any questions for us

Yes sir, thanks for asking.

I want to learn more technical skills, so could you tell me what should be the best to learn for this job role and to grow in your company?

Could you please explain about the work culture?

Where do you see this company in the next five years in terms of development?

What do you expect from me to ensure that you reach there?
